

## Experience

---

**TopCashback** | March 2025 to Present

Stafford, West Midlands, UK

Front End UI Developer & Web Accessibility Lead

- Promoted, gaining additional responsibilities – formally became recognised as Web Accessibility initiatives leader.
  - Successfully took Web Accessibility from an unknown subject to the forefront of business priorities.
- Led the company to achieve near-full compliance with WCAG 2.2 AA and 2025 European Accessibility Act:
  - Created a long-term testing plan, greatly improving accessibility of all new features and reducing overall regression.
  - Ran internal training sessions for over 30 developers, 5 of which then became Accessibility Champions.
  - Performed frequent website audits, highlighting and fixing 100s of accessibility issues across the site.
  - Built accessibility into project Acceptance Criteria, with the last 4 major projects complying with WCAG 2.2 AA pre-launch.
  - Ran a large-scale presentation of Web Accessibility Fundamentals, achieving emotional buy-in from 100+ staff members.

**TopCashback** | February 2022 to March 2025

Stafford, West Midlands, UK

Front End UI Developer

- Worked within UX Design team as the company's sole Front End Development specialist, with some UX Design duties.
- Developed flat designs into fully-functional prototypes in many projects, using HTML, CSS (SCSS/SASS) and JavaScript (JS).
  - Greatly increased project speed overall, producing a much higher standard of code due to high level of Front End expertise.
  - Iterative working enabled issues to be spotted early on and enabling Motion Design to be incorporated into prototypes.
- Worked exclusively in an Agile setting, excelling in teamwork, communication and timely project delivery.
- Fed back in over 300 code reviews, upskilling other developers and increasing TopCashback's overall level of Front End expertise.
- Very strong knowledge of UX/UI Design and usability principles, with a very high level of experience in Figma and Adobe XD.
  - UI Design, User Research, A/B sessions testing, Email design/development, and more.
- Achieved a promotion following recognition of my initiative, leadership and hunger to learn in regard to Web Accessibility.

**Ebuyer** | May 2021 to February 2022

Howden, East Yorkshire, UK

Web Developer & Designer

- Hybrid role between Web Developer & Designer, designing and building a variety of UIs in a time-critical Agile setting.
- Won in-house design competition for best total redesign of Product Search page.

## Education

---

**University of Huddersfield** | May 2021

Information and Communication Technology Undergraduate – First Class (A) Grade

- Achieved a 84% (A) grade on my Dissertation – UX review, testing and redesign of the NHS Test & Trace app.
- Gained lots of knowledge in many areas across Web Development and Design, where my passion for UX and Front End started.

**Barnsley College** | June 2017

A Levels

- ICT (A grade), History (B grade), Biology (D grade).
